

# STOP HUNGER & POVERTY

- To halve the number of people suffering from hunger
- To halve the number of people living on less than US\$1 a day

**0,1,2,3.**

- Every 3.6 seconds a person dies of hunger
- Many people cannot even pay for basic needs such as food
- All people need to have the minimum necessary to feed themselves

# EDUCATE EVERY CHILD

- A full course of primary schooling for all children

- There are 72 million children worldwide not in primary school
- Education creates more social, personal and economic chances for people and gives them a stronger voice in society
- Without education there can be no development

# EMPOWER WOMEN

- To stop gender inequality in primary and secondary education

- Only 19% of the seats in the world's parliaments are held by women
- Many women suffer under the disadvantages of gender inequality and discrimination from birth. They receive less education and have less job opportunities or political influences than men

# REDUCE THE NUMBER OF CHILDREN WHO DIE YOUNG

- To reduce the number of infant deaths under the age of 5

- More than 10 million children die each year before the age of 5
- These deaths are preventable by ensuring the access to clean water, food, health care and sanitation

# ENSURE SAFE AND HEALTHY MOTHERS

- To reduce by 3/4 the maternal death rate

- Every minute a woman dies in pregnancy or childbirth
- Complications and deaths during pregnancy are preventable – by ensuring the access to health care, education and contraception

# FIGHT HIV/AIDS, MALARIA AND INFECTIOUS DISEASES

- To stop the spread of HIV/AIDS, malaria and other diseases
- To ensure universal access to medication and therapy

- Every 30 seconds a child dies of malaria
- HIV/AIDS, malaria and other diseases are huge killers of people
- In 2007 40 million people were living with HIV
- Stopping HIV requires the access to preventative measures, education and therapy

# SAVE THE ENVIRONMENT

- To stop the loss of environmental resources
- To halve the number of people without clean water and sanitation
- Improve the lives of people living in

- 884 million people have no access to safe water sources
- The world's environment is in danger
- Forests are disappearing, plants and animals are dying out and pollution is increasing.
- Natural disasters cause death or economic loss.

# DEVELOP A GLOBAL PARTNERSHIP FOR DEVELOPMENT

- To develop fairer trade rules, more effective aid and debt relief
- To share responsibilities for making the world a better place for us all

- Only 5 donor countries out of 192 have kept their promise to end poverty
- Developing countries have to work towards achieving the Goals. And the rich countries have to support this development
- Shared responsibility is the basic of achieving the Goals by 2015
